

TRANSFER OF CREDIT

Students entering with an M.A. may not transfer credits. However, they will have the option of using prior coursework, where appropriate, to meet up to (2) distribution requirements. The Associate Director will determine which, if any, courses are eligible for this purpose. All students in the program take 12 courses. Students entering with an M.A. may use the reduction in distribution requirements to specialize earlier and to enroll in an article publication workshop. In consultation with department advisors, entering students will design a program that best meets individual needs and preparation.
