

Critical AI @ Rutgers invites you to a timely conversation

AI FUTURES:

An Interdisciplinary Conversation on Large Language Models and the Future of Human Writing

Thursday, February 16 at 5:00pm ET via [Zoom](#)

The recent release of ChatGPT has brought discussions of text generating “AI” into the mainstream.

NYC schools have already banned its use.

How do these large language models work? What are their potential uses and abuses? How might they impact the future of human writing?

Featuring:

[Kyle Booten](#) (English, University of Connecticut)

[Sam Bowman](#) (Data Science/Linguistics/Computer Science, NYU - Visiting Researcher, Anthropic AI)

[Liz Losh](#) (Rhetoric/American Studies, William & Mary)

[Nasrin Mostafazadeh](#) (AI Researcher, Co-Founder Verneek)

[Carter Mathes](#) (Introducer & Moderator, English, Rutgers University)
